Country analysis

Biden's immigration battle
United States of America – Arrivals at the border are increasing, and the government has neither the laws nor the facilities to cope.

Risk analysis

Inflationary fears
Asia – While price pressures remain manageable, the risk of a rapid surge in inflation should be taken seriously.

Industry analysis

Five-year plan for health
China – Healthcare – China is looking to keep up investment in telehealth, elderly care, and R&D capabilities over the next five years.

Neighboring countries and regions shown include Afghanistan, Pakistan, China, Nepal, Bhutan, Bangladesh, Myanmar (Burma), and Sri Lanka. The Arabian Sea and Indian Ocean are also labeled.

In brief

해당 국가에 정치/경제에 대한 간단 설명

The economy is forecast to rebound by 13% in fiscal year 2021/22 (April–March), after contracting by an estimated 7% in 2020/21. Ongoing protests will only delay the implementation of agricultural reforms and we do not expect the government to face a strong pushback on its labour reforms and privatisation efforts. The ruling coalition is expected to stay in power until the end of its term in 2024. Tensions with China will remain escalated but will not lead to a large-scale conflict.
